## Interesting Facts

Bio-Eco | 100% Compostable Packaging made from renewable resources such as sugarcane, corn, and cassava. We combine high quality materials with advanced technologies to produce our environmentally-friendly products, which all comply with global food safety regulation certifications. Unlike competing products, which can sit in overused landfills for years, our paper solutions compost into organic waste such as CO<sub>2</sub>, water, and biomass within 180 days, leaving zero plastic residue.
